How it works

Points are scored by comparing your results to your fellow runners. The more runners turn up, the more points are up for grabs if you beat them! The aim is to score you against your club mates rather than the runners from other clubs.

e.g If you're the only one that turns up in your age category (well done to you!) then you get one point. If four turn up then the fastest gets four points, next gets three, etc.

Prizes will be awarded for completing four out of the six races and there'll be age category prizes too (calculated from your best four results). You have to compete in at least four races to win the age category prize.

Any queries or if you see any errors; just let me know.
